DEPARTMENT OF GENERAL SERVICES

June 16, 2011

Dear Members of the General Assembly:

The Department of General Services' Bureau of Vehicle Management is currently accepting applications for its 2011-2012 Auto Services Facilities Contract, effective July 1, 2011 through June 30, 2012. This process allows Auto Service Facilities from across the state to apply to become service providers for the maintenance of the state's automotive fleet. State agencies rely on this network of providers to ensure vehicle services ranging from oil changes to bodywork repairs can be completed in a timely and cost-effective manner. We are happy to share this opportunity to do business with the Commonwealth and hope that you will forward this information to your constituents.

Additional information and the instructions for completing the online application can be found by accessing the following link: [Bureau of Vehicle Management Vendor Application Information](#). Applications and Certificates of Insurance from all potential vendors must be submitted through the online process by June 30, 2011 in order to provide maintenance and repair services to Commonwealth vehicles during this contract period.

If you or your constituents have questions or need further assistance, please contact Steve Weidner, Director of the Bureau of Vehicle Management at 717.787.3162.

Sincerely,

Holly Lubart
Legislative Liaison

CC: Sheri Phillips, Secretary
Dan Schiavoni, Deputy Secretary for Property and Asset Management
Steve Weidner, Director of the Bureau of Vehicle Management
