## **Senator McIlhinney Secures Funding for Community Conservatory**

Doylestown - The Community Conservatory of Music recently received a \$10,000 grant from the PA Department of Community and Economic Development (DCED). State Senator Charles McIlhinney was instrumental in securing the funding. The money will be used to support the Conservatory's outreach programs that make participation in the arts accessible for the elderly, children and adults with disabilities, at-risk children and families experiencing financial challenges.

Conservatory Executive Director Steven Rock announced the grant saying, "Senator McIlhinney has been very supportive of the Conservatory over the years and we are extremely grateful to him for his help in securing this DCED grant. We will use these funds to continue and grow our efforts to provide quality arts education to everyone regardless of age, ability or life circumstance."
